

Product Guide

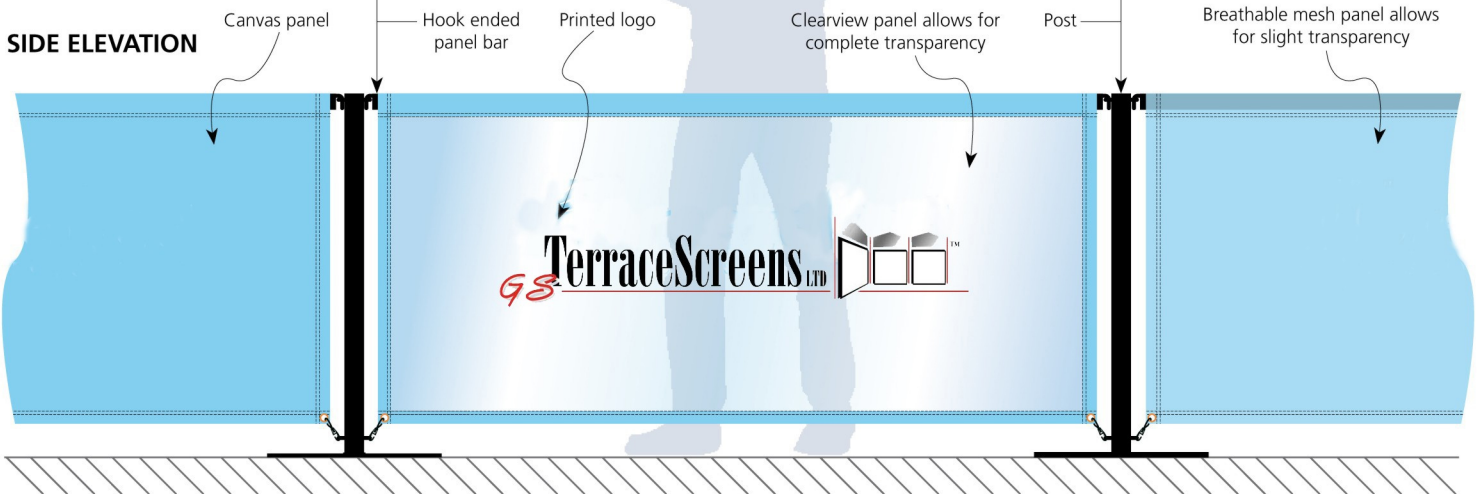

Overview

- Portable Screens define, enclose and protect alfresco areas.
- Standard satin black polyester powder finished metalwork (with special colours - including metallics, available upon request).
- Standard size stitched panels are either 1.5m, 2m or 2.5m in width.
- 97cm high posts with 15kg square (50 x 50cm) or round (50cmØ) baseplates.
- Removable panel bars hook between eyelets on the posts and support removable flexible panels.
- Panels are made from breathable mesh, canvas, Clearview PVC or Marine sport materials - all suitable for branding.
- Foot pads on the underside of baseplates, preserve the powder coating and prevent scratching of finished floor surfaces.
- Panels can be rolled around each panel bar for compact storage.
- All parts can be stored separately, when not in use for prolonged periods.

PLAN VIEW

SIDE ELEVATION
