

# Profit from your terrace!

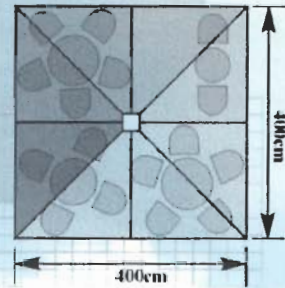

**GS TerraceScreens™ LTD**

**PARASOLS Counter Weight Mechanism**

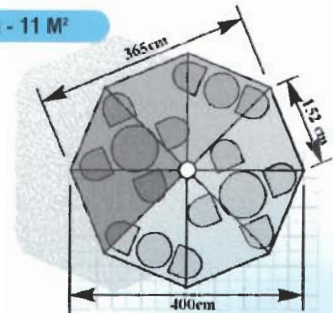

350 x 350 cm - 12 M<sup>2</sup>

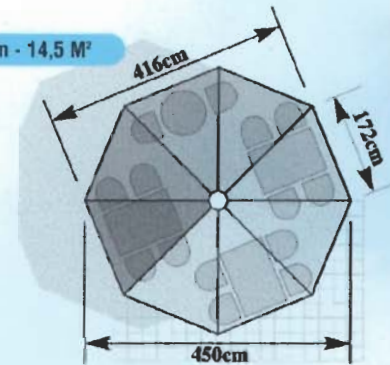

400 x 400 cm - 16 M<sup>2</sup>

Ø 400 cm - 11 M<sup>2</sup>

Ø 450 cm - 14,5 M<sup>2</sup>

If needed a parasol can be provided with a print presenting **you** or your sponsor's logo; screen-printing or digital printing enables the usage of a wide range of colours.

It is essential that parasols can be cleaned, are colourfast and remain watertight to withstand our British weather.

- \* Separate mobile / movable bases are available; the weight is based on the size of the parasol (the bases start from 170 kilograms).

- \* An in-ground base, into which the stand is anchored with concrete, is also available – an elegant and space-saving solution.

The parasol with a patented counter weight mechanism is a new and revolutionary design. This parasol has a telescopic mast, which is easily opened, closed and locked in place thanks to the built-in counter weight mechanism.

This model, **Armonia**, has been tested to withstand wind speeds up to gale force 7. The longevity of the aluminium frame is 6 - 10 years; the high quality dolan canvas will last about 3 - 7 years.

Relaxing on a comfortable and cosy terrace is a great way to spend time. A weather-, wind- and rainproof parasol can contribute to that in a major way by sheltering you from the sun and rain.

The layout of a terrace is a deciding factor when choosing the shape of the parasol. In turn, the shape of the parasol can be very important to the appearance of the terrace. Round and square parasols, with or without a valance, are available in several colours to ensure your terrace functions to its fullest potential.

The high quality of our jumbo parasols reflects our commitment to the criteria of providing only highest standards in materials creating attractive, yet simple and easy-to-use solutions for outdoor areas.

### Square

Model	Size	Mechanism	Amount of people	Coverage
Armonia	350x350cm	Lever/Telescopic	7 - 12 seats	12 M <sup>2</sup>
Armonia	400x400cm	Lever/Telescopic	12 - 16 seats	16 M <sup>2</sup>

### Round

Model	Size	Mechanism	Amount of people	Coverage
Armonia	ø 400cm	Lever/Telescopic	7 - 12 seats	11 M <sup>2</sup>
Armonia	ø 450cm	Lever/Telescopic	12 - 16 seats	14.5 M <sup>2</sup>
